

**Visit us at EWEC 2010 in Warsaw, from 20-23 April, Booth 4040, Hall 4!**

**At EWEC 2010, Ammonit will introduce our new online platform, AmmonitOR, and offer a preview of the latest Ammonit data logger, Meteo-40.**

**Our new online platform, AmmonitOR (Ammonit Online Report), will allow you to access, manage, monitor and visualise your measurement data worldwide, around the clock, from wherever it suits you. The new software will be available for free at the end of April. For further information on AmmonitOR, visit: <http://www.ammonit.com/en/ammonit-customer-login>.**

**Ammonit has developed and produced reliable data loggers for the wind industry since 1989. We are currently finalising the development of our new data logger generation. At EWEC you will have a chance to preview our new data logger, Meteo-40, which will be launched in September 2010. The Meteo-40 offers many new features and benefits and will be state-of-the-art for years to come.**

**Due to increasing demand from our customers and partners, Ammonit now offers solutions for solar systems, as well as solutions for wind measurements and wind farm monitoring. Visit our website to learn more: <http://www.ammonit.com/en/products/meteo-solar-systems/solar-systems>.**

**For further information and EWEC appointments, contact us at: [info@ammonit.com](mailto:info@ammonit.com), T: +49-30-6003188-0.**

**We look forward to meeting you in Warsaw!**

**Ammonit & Windhunter invite you to our booth party.**

**Booth party: Thursday 22<sup>nd</sup>, from 4 - 6 pm! Hall 4: 4040 & 4141**

**We look forward to meeting you soon!**

**If you would like to be removed from our mailing list, please email us at: [info@ammonit.com](mailto:info@ammonit.com)**
